

DIVYANSH POOTHIYA

AI/ML Engineer

☎ +91-6396689618 ✉ divyanshpoothiya123@gmail.com 🔗 [linkedin.com/in/divyansh-poothiya](https://www.linkedin.com/in/divyansh-poothiya)

Summary

AI/ML Engineer with hands-on experience in Python, Machine Learning, NLP, FastAPI, and Generative AI applications. Skilled in building AI-powered solutions, REST APIs, and intelligent automation systems. Experienced in developing ML models, NLP pipelines, and real-time AI applications. Passionate about Generative AI, RAG systems, LLM applications, and scalable backend development.

Skills

Programming & Databases: Python, SQL, PostgreSQL

AI/ML & Generative AI: Machine Learning, NLP, Prompt Engineering, Scikit-learn

Backend & APIs: FastAPI, REST APIs, WebSockets, API Integration

Libraries & Technologies: Pandas, NumPy, OpenCV

Automation & Testing: Selenium, Web Automation, API Testing, Postman

Tools & Platforms: Git, GitHub, Docker, Jupyter Notebook, Google Colab

Experience

AI & ML Intern

Feb 2026 – May 2026

Apptad Technologies Private Limited (Remote)

- **Worked on AI/ML and NLP-based solutions** gaining hands-on experience in data preprocessing, model development, and intelligent automation workflows.
- **Implemented NLP techniques** for resume screening and relevance ranking to improve candidate filtering processes.
- Developed automation workflows using Selenium to streamline repetitive tasks and enhance operational efficiency.
- Collaborated on machine learning model training, evaluation, and optimization using Scikit-learn.

Projects

Fake News Detection System | *Python, FastAPI, Machine Learning, NLP, SQLite*

Apr 2026 – May 2026

- **Built an end-to-end NLP application to classify news articles as real or fake using ML & NLP techniques.**
- **Implemented text preprocessing pipelines including tokenization** stopword removal, stemming, and TF-IDF vectorization for feature extraction.
- Trained and evaluated Logistic Regression models using Scikit-learn, achieving reliable classification performance on news datasets.
- Developed REST APIs using FastAPI and integrated SQLite database for prediction history and news verification.

Hand Gesture Emotion Recognition | *Python, OpenCV, MediaPipe, Machine Learning*

Feb 2026 – Apr 2026

- **Developed a real-time hand gesture recognition system** to classify user emotions using CV & ML techniques.
- **Collected and processed gesture datasets for multiple emotion categories including Happy, Sad, Angry, Neutral, and Calm.**
- Implemented hand landmark detection using MediaPipe and extracted gesture features for model training.
- Built a real-time prediction pipeline using OpenCV, enabling live gesture recognition through webcam input.

Awards & Certifications

- **OCI 2025 Certified Generative AI Professional – Oracle University, 2025** Certified in generative AI, LLM fundamentals, prompt engineering, and AI deployment on Oracle Cloud Infrastructure.
- **Power BI for Beginners & Data Analyst 101 – Simplilearn — SkillUp (Microsoft) (2025):** Gained hands-on experience in Power BI, data modeling, DAX, SQL, data cleaning, exploratory data analysis (EDA), data visualization, and interactive dashboard development for business insights and decision-making.

Education

Bachelor of Technology Computer Science

Graduated: 2025

Teerthanker Mahaveer University, Moradabad

CGPA: 7.2 / 10
